The MedSchoolCoach Founder

Sahil Mehta MD

MedSchoolCoach Founder

Undergraduate: B.S. Columbia University

Medical School: M.D. University of Chicago
Pritzker School of Medicine

Residency: BIDMC/Harvard University

Fellowship: MGH/Harvard University

"When I founded MedSchoolCoach I had a sole purpose in mind: to help pre-meds become doctors. Through personal experience, I knew how important it was to skillfully navigate the pre-med process and succeed in the world's most competitive admissions process. Since then, we've helped thousands of students become physicians."

Our USMLE Expertise

The MedSchoolCoach USMLE, COMLEX, and Medical School Tutoring team is made up of the **most highly qualified tutors in the country** who have aced their exams.

Plus, we recruit **tutors who not only have exceptional scores but are exceptional teachers** so they can help maximize your scores.

**Elite
USMLE
Tutors**

**Each with
250+
USMLE Scores**

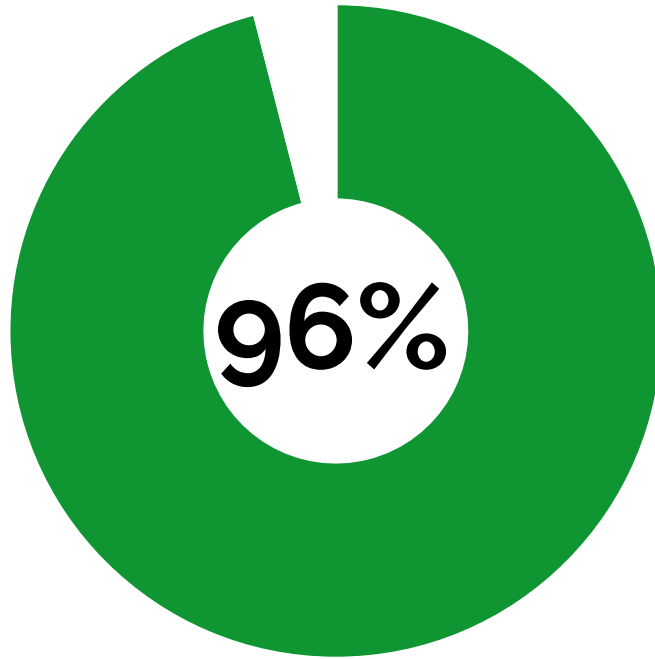

Joel Ramirez MD

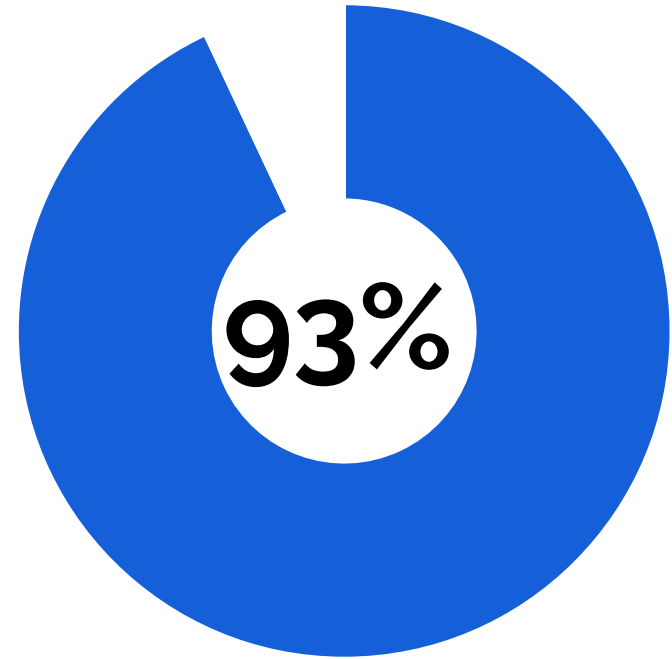

**Director of Medical
School Tutoring**

Dr. Ramirez attended University of California, San Francisco where he is currently a vascular surgery resident. He received a 266 on Step 1 and 265 on Step 2 CK. He oversees a team of elite USMLE and COMLEX tutors.

Our Students Recommend Us

96% of former students would
recommend us to a friend

93% found us **"very" or "extremely" helpful**
in the application and testing process

We Revolutionize **Medical School Tutoring**

When designing a medical school tutoring program, it was very important that we stayed true to what has made us so successful since our inception – a relentless focus on maximizing a **one-on-one relationship with a mentor.**

We will continue to approach our USMLE/COMLEX offering with the same **attention to detail and custom approach** that has worked so well for us. We want all our students to experience what it is like to be mentored through the challenging and highly competitive process of becoming a physician.

The MedSchoolCoach Difference

You likely have found more than a few medical school tutoring companies in your search to help you become a physician. We understand there are many competitors and we want to make sure you make the right decision for your application needs. Here's what separates us from the rest.

CARE

There is a reason that 96% of our former students recommend us. We go above and beyond for every student.

EXPERIENCE

We have helped thousands of students since 2007. Our breadth of experience is second to none. We've seen every situation there is.

PHYSICIANS

MedSchoolCoach is made by physicians, for future physicians. We believe in an approach that lives and breaths medicine so you can get the best results.

How Our USMLE Program **Works So Well**

COST

We have done the best job we can of balancing expert, high-quality tutoring with a reasonable cost for you.

RESULTS

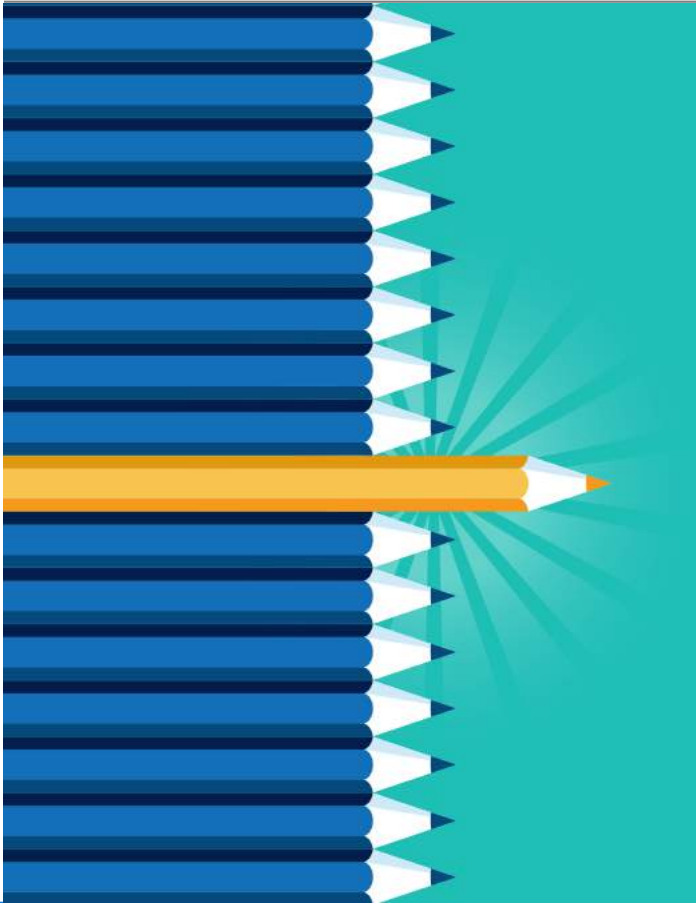

Our program gets results. Our students have seen an average increase in USMLE Step 1 scores of 30 points. Many students become very successful in their pre-clinical coursework and clinical rotations.

PERSONALIZATION

This is a customized and individualized experience. Every student we work with has a personalized plan that means no generic curriculum to follow and no going over material that you already know. Just a focus on what will get you results!

Study Smarter, **Not Harder**

We know that medical school and board exams require you to learn a daunting amount of information. That's why **we've figured out the most efficient approaches to improve your exam scores.**

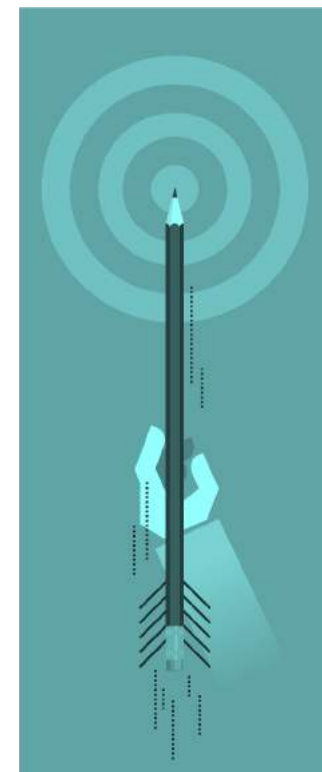

Instead of trying to make you squeeze out extra hours of the day to study, **our study plan will make sure every hour you spend studying works double-time to improve your score.** No more wasting time studying topics that you already know.

Strategies To Improve Your Score

Content review alone is not enough to score well on-board exams. Test-taking strategies are also important, but good ones are often not as straightforward as they may seem.

- How should you approach a question stem?
- What text in the stem should be highlighted?
- How much time should be allotted to completing each question?
- What is the best way to approach questions?
- How can you efficiently eliminate wrong answer choices?

If you have asked yourself any of these questions, then we can help you. We have experience working with all types of students and can craft a specialized test-taking strategy approach that works for you.

The Keys to **Your Success**

THE BEST TUTORS

Our tutors have all scored exceptionally well on the USMLE (99th percentile). More importantly, they are amazing teachers. We only recruit those who have a proven record of success.

TAILORED APPROACH

Every student who works with us is unique. We tailor our tutoring to each and every student's situation so they can maximize their score.

STUDENT SUCCESS TEAM

All of our packages come with a Student Success Manager who is available for any questions, concerns or needs that come up! They will oversee your progress to assure success.

The Benefits of Online Tutoring

ONE-ON-ONE ATTENTION

At the core of everything we do at MedSchoolCoach is a highly tailored, personalized approach. We don't believe in large group classes or generic material. We will evaluate your individual needs and create a plan for success accordingly. One-on-one tutoring is far more effective than a large class approach.

REPETITION & FEEDBACK

Research has proven that repetition is the key to a comprehensive understanding of material. That's why every session you have will be recorded; you can go back to it and review it at your own pace. Additionally, our tutors will provide you detailed feedback after every session so you can focus your efforts.

CONVENIENT & FLEXIBLE

Our online platform allows access to the best tutors in the world. We utilize an online classroom with video camera and whiteboard to deliver results. Online tutoring allows the flexibility to study around your schedule. In addition, we are extremely quick and efficient at making changes to accommodate our students' needs.

Resources For Tutors to **Help You**

All medical school tutors at MedSchoolCoach have access to both **AMBOSS** and **COMBANK** to make the learning as effective and efficient as possible.

AMBOSS is an all-encompassing, efficient platform combined with excellent teaching that can be customized for every learning style.

- Access to Qbank that covers over 15,000 clinical knowledge areas
- AMBOSS add-on for Anki Flashcards
- Interactive library of medical knowledge
- The #1 European medical study resource

Every COMLEX Level 1 practice question is analyzed for its alignment to the new blueprint, difficulty, medical accuracy, and overall quality with COMBANK.

- Over 2000 NBOME-formatted test items
- Integrated with the new COMLEX-USA blueprint
- Increased the average students 3-digit score by 60 points
- Used by the majority of DO medical students in the USA

Our **Proprietary Resources**

MedSchoolCoach tutors also have access to
high-yield proprietary resources!

This includes **hundreds of presentations,
extensive notes, and unique questions.**

Our Tutoring Guarantees

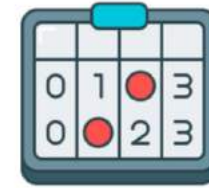

SATISFACTION

We've hired the best tutors in the country for your USMLE preparation, however we understand that not every tutor's style works perfectly for every student. If at any point you are unhappy with your current tutor, we'll switch tutors immediately.

SCORE IMPROVEMENT

If you are working with us through our Silver or Gold USMLE tutoring packages and your score doesn't improve from an official NBME practice, we'll work with you for another 10 hours complimentary!

UNUSED HOURS

Within 60 days of purchase, we'll refund any hours that you haven't used. This way, you don't have to worry about monitoring your hours right before your test. Use what you want, we'll refund what you don't!

Testimonials from Past Students

“

My tutor did an excellent job at balancing teaching and quizzing. It was very helpful in assessing how well I knew a certain subject matter. If I did not know something well, he was always well versed in the subject and explained things in multiple different ways so I could really understand it. He also suggested we work on test taking skills. I would not have even known to ask about this, but I am so glad that he did because it raised my score immediately. Overall, he was better than any tutor I could have asked for. He exceeded all of my expectations, my score increased considerably, and I had fun doing it.

My tutor is amazing! She is flexible with scheduling and is always responsive to quick questions. She makes sure to guide me through the material but makes me think through concepts rather than just telling me the answers. She's a great balance of supportive, but still challenges me!
